OUR WINEMAKER

Felipe Ortiz

Agronomist Enologist Engineer, scholar of the prestigious association of agronomist engineers of Chile (ANIAE).

Felipe has developed his career in France, USA, Australia and Chile, he maintains that the Maule Valley has a variety of characteristics that ensure:

White wines with very fresh and mineral traces, in particular our Sauvignon Blanc. Red wines with short maturity cycles showing a very good balance between alcohol and acidity, like Merlot and Cabernet Sauvignon.

And above all, a nice and silky Carmenere, a tricky and demanding variety which is hard to mature properly in other valleys.
